Euro PRODUCTS

# Product range

THE **CLEAR** AND **CLEAN** SOLUTION

**Since 1991, MTS Euro Products has carried a wide range of high-quality hygiene products, including toilet paper, hand towels, dispensers, non-wovens, sorbents and wiping rags.**

From our logistics centre in Maassluis, we work with customers in the Netherlands and abroad every day. Service, speed and flexibility, combined with a commitment to quality, make us what we are: a reliable, service-oriented supplier and knowledge partner for all your hygiene products.

MTS Euro Products finds solutions for customers and end users. Because we are independent, we have the freedom to pick and choose the very best products from various international companies, resulting in a diverse selection of high-quality hygiene products, complemented with consumables such as bin bags. We also carry various premium brands, as this is a cornerstone of our customer-oriented philosophy.

**Service-oriented and environmentally conscious will always core values of MTS Euro Products. To optimise our services, we listen to our partners, talk to our suppliers and carefully monitor the market. We share knowledge, provide expert input and solve problems.**

### Customer-oriented and transparent

We invest in durable, long-term relationships with our partners every day, which revolve around reliability and transparency. We constantly monitor customer satisfaction and optimise it where necessary.

### Honesty & integrity

Honesty and integrity are very important to us,
We do not accept any donations, gifts or services that may affect our independence, and when we make charitable donations ourselves, it is never our intention to ask for a quid pro quo or create the impression of doing so.

### Innovative

The world around us is changing rapidly and the needs & wishes of our customers and users are changing with it. We constantly look to optimize our product range and respond to the ever-changing market.

### Environmentally conscious

Taking care of nature and the environment is a key component of our policy, and many of our departments take measures to minimise the environmental impact of their products and activities every day.

We do this by using raw materials responsibly, minimising waste and minimising our energy use.

### Committed

MTS Euro Products owes part of its success to the commitment of its employees To our customers, our services and each other.

### Accessible

We believe that clear communication with each other and with our customers is an essential ingredient of good, lasting relationships with our customers and suppliers. Good accessibility, both online and by phone, is a must.

### Social responsibility

MTS Euro Products supports numerous projects that benefit people and society, such as sports clubs and charities. We also outsource various activities to organisations who employ people with poor job prospects.

## Service with a capital ‘S’

MTS Euro Products is a true-blue service provider, and all our processes have been set up with the specific goal of providing the highest level of service possible. Accuracy is key and speed is a must. Our people always go the extra mile for our customers. We have put a lot of thought into what our customers want and expect and proactively track new developments.
We support, advise and help our customers find the right solutions quickly and to their full satisfaction.

### One-stop shop

With MTS Euro Products, you will have a partner that can provide a full range of hygiene products, including a wide variety of service items, such as bin liners and products of other premium brands. With our one-stop-shop concept, you can buy all your hygiene products from just one supplier at the best possible prices. How convenient!

### Business to Business

We only supply wholesale, By working alongside wholesalers, we want to serve end users as effectively and efficiently as possible.

### Satisfied customers

Excellence through cooperation.
By always putting our customer first, we go the extra mile, keeping everyone we work with feeling satisfied and familiar.

## Sustainability plays a key role in our business

We are whole-hearted proponents of the Clear and Green Solution. Our company’s goal may be to be financially healthy, but that does not mean we are not aware of the environment.
By being transparent about our vision and mission, without losing sight of people and the environment, we practice what we preach. Consumers put greater faith in a brand if they can tell that the organisation makes a positive contribution to the environment and society, but they are also becoming more critical of companies proclaiming to be socially responsible or sustainable. It is important to map out clearly what we actually mean when we say our brand has a social and sustainable impact, rather than just making empty promises.

- Optimising waste separation
- Greening our products
- Energy-neutral construction
- Minimising paper use
- Optimising packaging
- Compliance

MTS Euro Products is aware that the climate is changing and we are entirely willing to take our responsibility.
53% of consumers nowadays consider the environmental and societal impact of the products or services they are looking to buy. MTS Euro Products has anchored corporate social responsibility and sustainability in its policy with the CSR guide.

MTS Euro Products is certified for nine different themes from the CSR Guide, based on the ISO 26000 for corporate social responsibility.

These certifications, as well as our ISO 9001 and 14001 certifications, are audited every year.

# Our full range of hygiene products at a glance

## Looking for a reliable, seasoned all-round supplier of hygiene products such as toilet paper and hand towels, non-wovens, sorbents and wiping rags?

**A partner who will help you find the right solution at the best possible price? MTS Euro Products has carried a wide range of hygiene products for a variety of industries since 1991, from soaps and dispensers to toilet paper and cleaning cloths. In this brochure, you'll find every single product MTS Euro Products has to offer, broken down clearly into several different product groups:**

### Toilet hygiene

Everyone appreciates a clean toilet, whether you're in a hospital or a primary school. MTS Euro Products has a wide range of toilet hygiene products, spanning from toilet paper and folded hand towels to hand towel rolls, toilet seat cleaners, urinal mats, sanitary bins and air freshener systems.

### E-tissue

With our sustainable circular hygiene paper, we have completely closed the loop: from the production process to collecting used hand towels. By collecting hand towels properly, we can ensure that the underlying materials can be reused to make new hygiene paper. E-Tissue is our way of reducing waste and contributing to a more sustainable world for humans and animals alike.

### Paper rolls

Paper rolls are incredibly versatile and are used more often than you may think. They come in handy in the kitchen, in workshops or even on a doctor's treatment table. All because paper is a very hygienic option!

### Wiping rags

Our wiping rags are made from 100% recycled textile and their high-quality, sustainable composition renders them virtually indestructible.
These wiping rags are particularly versatile and can be used to wipe and clean various surfaces and absorb a wide range of liquids.

### Cleaning wipes

Our well-known dishcloths are used in the cleaning, catering and food industries.
MTS Euro Products carries these cloths in a wide gamut of colours and quality grades.
Consider using a different colour for different cleaning jobs.

### Non-wovens

Whether you're cleaning a car or looking to remove heavy soiling, non-woven cloths from MTS Euro Products will help you get the job done. Take your pick from our wide range of high-quality non-woven cloths,
suitable for any application and industry.

### Sorbents

Choosing the right sorbent is absolutely essential. Fortunately, MTS Euro Products has various sorbents for you to choose from, so you will always find a material that's right for you, whether you're looking to absorb oil, water or other liquids.

### Skincare

Healthy hands are productive hands. That's why good hand hygiene is essential.
Buy your hand soap from MTS Euro Products to be sure that your soap is suitable for the type of dirt your hands will encounter. We carry a wide range of different foaming and non-foaming lotions, hygiene soap and industrial soap.

### Bin liners/refuse bags

Bin liners/refuse bags are used everywhere: in healthcare facilities, offices, schools and industry. Quality is a very important requirement, because there's nothing quite as annoying as a bin liner that tears easily.

### Dispensers

Furnishing your washroom is probably not at the top of your list of priorities, and yet the design and hygiene performance of your washroom speaks volumes about your company. MTS Euro Products will serve as your knowledge partner, helping you furnish your spaces as efficiently and hygienically as possible.

# Info sheet

### 1-ply

Our 1-ply paper is our most economical paper and is usually used for events and at schools. Our paper is tailored to user circumstances and comfort.

### 2-ply

Our 2-ply paper is our most popular paper. This high-quality paper is comfortable and absorbent. Many of our 2-ply products have a sustainability certificate, such as the Ecolabel or the FSC quality mark.

### 3-ply

Our 3-ply feels luxurious. It is very soft, strong, and absorbent and is comfortable enough to make users feel at home.

### Cellulose

Cellulose paper is produced from new paper fibres, which makes the paper feel very soft and comfortable and gives the paper a luxurious and high-quality appearance. Cellulose paper is very absorbent, which means it can be widely used in various sectors and for a multitude of different applications.

### Recycled

Recycled paper is produced from recovered paper and waste paper. During production, the recovered paper is mixed with water and any dirt is removed. Recycled paper is strong and pleasant to use.

Both cellulose and recycled products from our range have a sustainability quality mark to indicate that they meet various requirements with regard to sustainable and responsible forest management and are less harmful to the environment.

### FSC® (Forest Stewardship Council®)

This quality mark indicates that the raw materials used for the paper and paper products in question was sourced from responsibly managed forests.

### EU Ecolabel

European quality mark for non-food products and services that are less harmful to the environment than comparable products without the quality mark. Products with the European Ecolabel are manufactured with raw materials sourced from responsibly managed forests. Products awarded the European Ecolabel have a demonstrably lower environmental impact throughout their entire life cycle.

### FCC (Food Contact Certificate)

The products with an FCC quality mark are suitable for contact with dry, moist and fatty foods.

## Hygiene is an essential part of our daily life.

**It is very important that rooms, interfaces and our hands are kept clean and hygienic. One of the most important places where hygiene deserves our full attention is a place we visit about 6 times a day: the washroom.**

Experience, convenience and hygiene. These are the three key elements of optimal washroom design. Washrooms have to be clean, of course, but dispenser selection and placement are also important considerations, as is the routing through the rooms and choosing the right consumables to help keep washrooms clean and give visitors a clean, hygienic feeling.

### Picking the right dispenser

Choosing the right dispensers depends on a number of essential factors.

- How many people use the washroom every day?
- What is the daily average consumption?
- What capacity can the room handle?
- Does the end user have any specific needs and wishes?

All these factors influence which dispenser is best for you. Busy washrooms require a high-capacity dispenser, while small spaces force designers to use the available space wisely and opt for compact, efficient dispensers.

### Tips from our specialists

Embrace the following tips for an optimally designed, hygienic washroom.

1. Always install a soap dispenser above a washbasin.
2. Make sure the hand towel dispenser is in easy reach to prevent the floor from getting wet.
3. Make sure that the hand towel dispenser is not too high to prevent water from running down the user's arms and into their sleeves.
4. Always put a dustbin directly under a hand towel dispenser.
5. Keep a digital air freshener system as far away from the extraction system as possible.

## QUARTZLINE

IMMACULATE WHITE | ROBUST BLACK | STYLISH STAINLESS LOOK

### DUO TOILET ROLL DISPENSER | BUNG ROLL Q1

- High capacity
- Easy to refill, ready for use
- Non-stop system, constant availability

# e tissue

## E-Tissue is an innovative product, produced entirely with recycled raw materials.

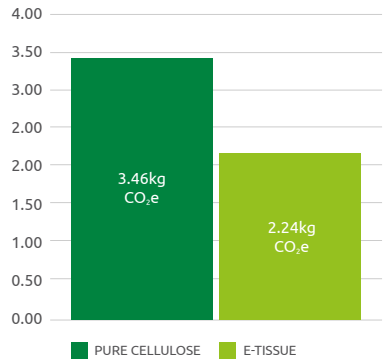

This circular line of products completely closes the production loop from the production process to collecting used hand towels. E-Tissue is produced from top-quality recycled kraft paper and cellulose trimmings (cut-offs from parent rolls). No chlorides or chemicals are added during the production process of E-Tissue, which makes all E-Tissue products safe for humans and the environment.

## Life Cycle Analysis report (LCA)

To better understand the environmental impact of our E-Tissue products, MTS Euro Products commissioned a life cycle impact report (LCA). LCA is a method to determine the total environmental impact of a product throughout its life cycle. This allows us to identify and reduce the impact of products and human activities on the environment.

E-Tissue's LCA Report shows, among other things, that the emissions of $CO_2e$ in the entire life cycle of E-Tissue per kg is 35.4% lower than that of a comparable pure cellulose product (2.24kg $CO_2e$ versus 3.46 kg $CO_2e$ per kg of paper produced).

**$CO_2e$ emissions per kg**

# CIRCULAR SANITARY PAPER

**Top quality recycled paper At a fair price**

- DRY STRENGTH IS EQUAL TO THAT OF PURE CELLULOSE
- E-TISSUE IS ECONOMICAL & SUSTAINABLE
- EXCELLENT ABSORBENCY
- SOFT SENSATION
- GREAT STRENGTH WHEN WET
- PLEASANT SCENT

## DUO TOILET ROLL DISPENSER | COMPACT/ TRADITIONAL Q2-E

**447002 - White Quartz**
**447052 - Black Quartz**
**447092 - Silver Quartz**

- Suitable for two rolls of toilet paper with a maximum Ø of 15 cm
- Non-stop system, always in stock
- Suitable for traditional toilet rolls
- Compact rolls for a high capacity
- Dimensions 218 x 330 x 145 mm

## DUO TOILET ROLL DISPENSER | MINI JUMBO Q5-E

**447007 - White Quartz**
**447057 - Black Quartz**
**447097 - Silver Quartz**

- Suitable for two rolls of jumbo toilet paper with a maximum Ø of 20 cm
- Non-stop system, always in stock
- Ideal for busy places thanks to its high capacity
- Saves time & labour
- Dimensions 247 x 407 x 145 mm

## TOILET PAPER DISPENSER | BULK PACK Q6-E

**441006 - White Quartz**
**441056 - Black Quartz**
**441096 - Silver Quartz**

- Extremely hygienic single-sheet toilet paper system
- Non-stop system, constant availability
- No disposable cores, so no waste thanks to the bulk pack toilet paper
- Easy to use and refill
- Dimensions 278 x 140 x 129 mm

## HAND TOWEL DISPENSER | MULTIFOLD Q8-E

**447102 - White Quartz**
**447152 - Black Quartz**
**447192 - Silver Quartz**

- Suitable for the multifold and C-fold towels
- Easy to refill, ready for use
- Extremely hygienic single-sheet dispenser
- Economical in use
- Dimensions 377 x 282 x 125 mm

## AUTOMATIC HAND TOWEL DISPENSER | MINI MATIC XL Q14-E

**447109 - White Quartz**
**447159 - Black Quartz**
**447199 - Silver Quartz**

- Very compact and economical
- Extremely hygienic single-sheet dispenser
- Low-noise
- High paper volume
- Dimensions 318 x 310 x 185 mm

## WIPE ROLL DISPENSER | MIDI Q16-E

**447104 - White Quartz**
**447154 - Black Quartz**
**447194 - Silver Quartz**

- Universal dispenser for all midi centre-feed rolls
- Quick and easy to dose
- Hygienic
- Dimensions 375 x 265 x 222 mm

## Paper roll quality takes on significant meaning once applications start requiring special product properties.

**Low lint, highly absorbent blue paper rolls with an EU Food Contact Certificate, for instance, are an excellent choice in situations where the paper could come into contact with food. In industrial settings, workshops or the automotive industry, however, products need to meet different requirements, such as absorbency, volume and/or capacity requirements.**

MTS Euro Products Paper rolls are available in different sizes, colours and quality levels. Ofcourse, we also have a suitable dispenser or floor or wall stand for every roll.

### Select Paper

Our Euro Select paper is made from long cellulose fibres, which makes it very absorbent. It is a low lint paper with a very high tensile strength, and because it is highly absorbent, it is suitable for a wide range of different applications. The high speed at which the paper absorbs liquids and oil makes it very suitable for garages and hospitality establishments, among others. Our Euro Select paper is available in a 1-ply or 2-ply version and its white colour facilitates hygienic working conditions.

## QUARTZLINE

IMMACULATE WHITE | ROBUST BLACK | STYLISH STAINLESS LOOK

## Wiping rags made from 100% recycled textiles are high-quality, durable and indestructible.

**As a manufacturer MTS Euro Products has control over the whole production process and we can therefore offer you a reliable service and a stabile quality. Available in all common types of packaging.**

Before choosing which wiping rag quality is most suitable for the job, it is essential that you identify the application first.

Our range of coloured and white wiping rags can be defined as follows:

- Tricot wiping rags made from materials like T-shirts and Sweatshirts
- Woven wiping rags made from materials like sheeting, shirts & blouses, corduroy, jeans, flannel, terry bathrobes and towels
- Cotton Waste made from new cotton materials

Wiping rags are tough and durable and therefore economic in use.  Each type has a specific quality. Thick tricot wiping rags made from sweatshirts will be more suitable for absorbing oil and grease than a thinner woven quality made from materials like bedsheets or shirts.

If you are working with solvents a white wiping rag will be fit for the job. Working with white wiping rag qualities will also make it easier to see whether a surface has been cleaned properly.

MTS Euro Products will be pleased to help you find the best solution for the job.

**Sustainability**

We collect more than 100 tons of clothing every day, most of which is reusable. After a careful sorting process, we are left with a batch of clothing that cannot be reused, which is then recycled and processed into sustainable wiping rags.

## WIPING RAGS WHITE - WOVEN

| Art. No. | Description | Packaging |
|---|---|---|
| P35720 | WL1 - white rags , premier quality | 10 kg bag |
| P35410 | WLV - white rags, sheet quality | 10 kg bag |
| P33905 | WBAD - MIX - white terry rags | 5 kg bag |
| P34010 | WH - cut roller towelling white | 10 kg bag |

## A suitable cleaning wipe for light and heavy cleaning work.

**Our MTS Euro Products cleaning wipes are highly versatile and can be used in many different sectors. Our cleaning wipes can be used wet or dry and with or without solvents.**

### Dishcloths

These well-known cloths are low lint, absorbent and economical in use. Suitable for cleaning, catering and food industries.

Consider using a different colour for different jobs or spaces:

- Blue Furniture
- Yellow Kitchen
- Pink Washrooms
- White General
- Green Kitchen

### Microfibre wipes

Microfibre wipes are made from high-quality heavy 340 gram quality material. This wipe is suitable for cleaning any space and surface. For use with or without chemicals

### Needle punch wipers

Our needle punch wipers are best suited to heavy-duty cleaning work, such as absorbing oil, grease and other liquids. These wipers are used in the industrial and automotive sectors and are suitable for wiping and cleaning engine parts and tools.

Needle punch wipers are known for their soft feel and a high wet strength and tensile strength.

## The right non-woven cloth for every job.

**No matter what industry you work in, you'll always run into a tricky cleaning job every now and again. Whether you are polishing a car, cleaning a kitchen or have to mop up oil, MTS Euro Products has the right non-woven cleaning cloth for every job. Non-woven cloths have their own specific properties. Here is an overview of our various types of non-wovens:**

### TOPTEX
- Low lint
- Reusable
- Solvent-resistant
- High-quality cloth

**Compatible with:**
- Car body repair shop
- Printing industries
- High-tech and electronic industries
- Painting and automotive industry

### SOFTTEX
- Low lint
- Soft
- Great value
- Solvent-resistant

**Suitable for:**
- Car body repair shop
- Printing industries
- High-tech and electronic industries
- Painting and automotive industry

### SOFT POLISH
- Low lint and scratch-free
- Open perforated texture
- Very soft
- Ideally suited for polishing surfaces

**Compatible with:**
- General cleaning companies
- Automotive sector
- Cleaning industry

### X-WIPE
- Low lint
- Large volume
- Very high quality
- Solvent-resistant

**Suitable for:**
- Heavy industry
- Workshops
- Automotive sector
- Aviation sector

### M-WIPE
- Soft cloth
- Flexible and elastic
- Highly absorbent
- Great value

**Compatible with:**
- Cleaning industry
- Hospitality and food industry
- Agricultural sector

### CLASSIC
- Very soft cloths
- Open perforated texture
- Highly absorbent
- Low lint and scratch-free

**Compatible with:**
- Hospitality and food industry
- Medical sector
- Automotive sector

### PROPTEX
- Low lint
- Large volume
- Reusable
- Solvent-resistant

**Suitable for:**
- Car body repair shops
- Printing industries
- Petrochemical industries
- Painting and automotive industry

### F-WIPE
- Soft and flexible
- Open perforated texture
- Highly absorbent
- Low lint and scratch-free

**Compatible with:**
- Hospitality and food industry
- Printing industries
- Medical sector
- Automotive sector

## ■ TOPTEX - A strong, lint-free cloth with high absorbency that's especially suitable for car repair shops and the printing industry.

Absorbs: Water: 5/5 Grease: 4/5 Oil: 3/5

| P64790 | White | 30 cm | 30 cm | 800 sheets/roll | 36 | |
| P64793 | White | 30.5 cm | 31.5 cm | dispenser box 4 x 100 cloths (400) | 40 | |

## Have the right sorbents on hand as standard and in emergencies.

**No matter what industry you work in, you probably have to deal with a nasty spill or leak every now and again. With the right sorbent, the clean-up will be a cinch! MTS Euro Products supplies various types of sorbents that are suitable for absorbing oil, water or other liquids.**
**Sorbents have specific properties that make them particularly suited to certain mishaps and emergencies.**

### Only oil Sorbents

These sorbents are water-repellent and can absorb any oily liquid. They're ideally suited to cleaning up oil spills quickly and easily without damaging the environment. These products are available in cloths, rolls, socks and with different levels of absorbency.

### Industrial Sorbents

These sorbents are suitable for all liquids, making them the ideal solution for quickly cleaning up liquids. Industrial sorbents are available in pads, rolls, socks and booms. These products are strong, low lint and easy to use.

### Universal Sorbents

Universal sorbents have rather special properties: because they consist of specially treated polypropylene fibres, they can absorb not only watery and oily liquids, but even the most aggressive chemicals as well. Universal sorbents are ideally suited for use around machines and laboratories, absorbing liquids quickly and in great quantities.

### Spill Kits

Accidents always happen when you least expect them and often require an immediate response. In order to avoid damaging your workplace or even the environment, it's important that you have the right emergency kit/spill kit on hand in order to act right away.
Based on applicable laws and legislation, we have put together various emergency kits/spill kits tailored to the needs and wishes of various users, from portable bags with an absorption capacity of 30 to 60 liter for lorries and excavators to large spill kits with an absorption capacity of up to 1900 liter for use on board seagoing vessels.

### Absorbent granulates

This material is available in hard and soft granulates with a high absorption capacity. The granulates can be used both indoors and outdoors to absorb oils, greases, lubricants, light chemicals or other liquids. Absorbent granulates are especially suitable for emergencies that require a long-lasting solution.

## SORBENTS: ONLY OIL

### ■ ONLY OIL - Absorbs oil and fuels, repels water.

| Art. No. | Description | Specifications | | | Weight | | Packaging |

## Hand hygiene is essential for a healthy living and working environment.

**Healthy hands are productive hands. The COVID-19 outbreak in 2019 has been a great reminder that one of the most effective ways of stopping the spread of a virus is also one of the simplest: washing your hands with soap and water. We touch everything and everyone with our hands, including dirt and pathogens.**

**Our range of skincare products caters for all your needs.**

### Lotion soap

Lotion soap is suitable for daily use and we carry perfumed and non-perfumed options. This soap can be used in washrooms in, for example, schools, offices and catering establishments. The lotion soap is available for the bag-in-box soap dispenser. The unique thing about this dispenser is that it is hermetically sealed, so no bacteria or contaminants can get to the soap, guaranteeing ultimate shelf life.

### Foam soap

If you are looking for a hygienic, environmentally friendly way to wash your hands, we recommend using a foam soap. This foaming hand soap is environmentally friendly, efficient, hygienic and affordable. Foam soap can be up to 50% more economical than a regular liquid soap, as a dose of liquid soap averages about 1 ml and foam soap averages only half. Foam soap expands in the user's hand, making them less likely to use multiple doses.

### Sanitisers

With our hygienic hand sanitiser gels from Sanicur, Purell, Kenosept-L/G and more, you can clean your hands without needing any soap or water. Our range consists of antiviral and antibacterial liquid and gel sanitisers. Our hand sanitisers are available in multiple different sizes, making them ideal for in the car, in the office or as to refill disinfectant stations.

### Industrial soap

Industrial soaps are suitable for stubborn soiling in the heavy industry or automotive sector, where one can come into contact with substances that harm the skin. To keep your hands in good shape, it is important that your skin is protected, cleaned and nourished properly. Picking the right sanitiser depends in part on determining what type of soiling and dirt you will encounter on the job. We carry soaps intended specifically for removing lubricants, grease, adhesives and tar. All our hand sanitisers feature skin-friendly exfoliating particles for effective cleaning.

## QUARTZLINE

**IMMACULATE** WHITE | **ROBUST** BLACK | **STYLISH** STAINLESS LOOK

### DISINFECTANT/SOAP DISPENSER | BAG-IN-BOX 900 ML Q18

- Each refill comes with a new doser
- Easy to use

## The right bin liner for every location, application and workstation.

**Everyone needs bin liners. Quality is a very important requirement, because there's nothing quite as annoying as a bin liner that tears easily. MTS Euro Products has the right bag for every space, application and workplace. All our bin liners were designed and produced to have the lowest possible environmental impact. Wherever possible, our liners are made of recycled plastic or an optimum blend of raw materials for greater sustainability.**

We carry a particularly wide range of bin liners, and we can even produce liners to meet your specifications, including personalised printing. For more information, please contact us. All MTS Euro Products' bin liners are made from recyclable raw materials and can be reused for new products after processing.

---

### LDPE Bin liners

*Reused is the best choice*

Our LDPE bin liners are made from recycled plastic, which is sourced from sorted, washed consumer waste before being reprocessed into a high-quality bin liner.

The classic KOMO bin liner is probably the best known example. These liners are often used for heavy-duty applications, such as in the hospitality, catering and construction industries. By reusing materials, we can produce high-quality, sustainable products.

### HDPE Bin liners

*Powerful and responsible*

HDPE bin liners are made from a blend of primarily virgin raw materials. The blend ensures maximum strength and optimal thickness.

HDPE bin liners can be used for many everyday applications, such as for facility management services or office waste.

- Easy to refill
- Suitable for plastic bags
- Available in matt white and matt black
- Dimensions 135 x 97 x 27 mm

## WHAT SIZE BIN LINER DO I NEED?

**RECTANGULAR OR SQUARE BIN:**

**How wide should my liner be?**

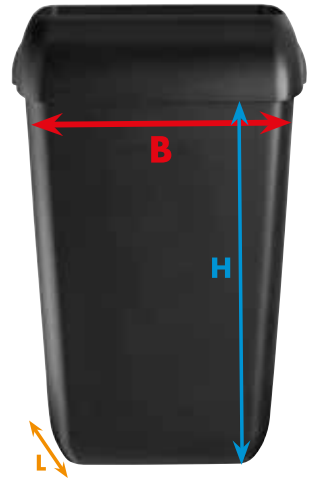

Bin length + bin width = liner width.

**How long should my liner be?**

Bin height + 1/2 bin width + 10 cm = liner length. Example: You need a liner for a square bin with the following dimensions: (W) **50** x (L) **20** x (H) **75** cm.

Here's how to find the right size:

- Liner width: **50** + **20** = 70 cm
- Liner length: **75** + (**50** /2) + 10 = 110 cm

**ROUND BIN**

**How wide should my liner be?**

(The Ø diameter of the bin) x (3.14) / 2 = the width of the liner

**How long should my liner be?**

The height of the container + 0.5 x the diameter + 10 cm = the length of the liner

Example: You need a liner for a round bin with the following dimensions:
Ø **38** cm x **50** cm high.

Here's how to find the right size:

- Liner width: **38** x 3.14 / 2 = 60 cm
- Liner length: **50** + (Ø **38** /2) + 10 = 80 cm

* *If you do not end up with a round number, round up the result.*

## Pick the right dispenser for the right location for greater hygiene!

**Furnishing your washroom is probably not at the top of your list of priorities, and yet the design and hygiene performance of your washroom speaks volumes about your organisation. With optimal furnishing, you can create an appealing, hygienic washroom in which your guests can feel clean and comfortable. MTS Euro Products is an expert knowledge partner who can provide specialist advice on equipping your spaces with the right dispensers.**

Choosing the right dispensers is an important part of the washroom design, and many factors can influence the 'right' choice, such as user count, room size and the customer's needs and wishes. Collecting the right information and identifying everyone's needs and wishes will make choosing the right dispenser a lot easier.

### QuartzLine dispenser line

Quartz is a pure mineral known for its durability and toughness, but also for its strength and elegance. This makes it the perfect source of inspiration for our latest line of high-quality dispensers, which come in immaculate white, robust black and a very stylish version in black with a stainless steel look. Our QuartzLine brings a sense of quality and elegance to any space: a jewel of a dispenser with extraordinary functionality and ease of use.

The QuartzLine was designed and executed with flawless attention to detail and developed with the utmost care for professional users. Each dispenser is easy to open and - if required - close with a universal key. You are guaranteed to find a perfect solution for every application and every room. These matt-finished dispensers are both modern and sophisticated.

### PearlLine dispenser line

The PearlLine is Euro Products' unique in-house line of dispensers. The dispensers in this line are made of plastic and their timeless design is a perfect match with any style. During the design process, flawless attention to detail was paid to the design and to the features required by professional users. Our PearlLine dispensers represent affordable quality with a gorgeous pearl-like finish! The entire line is available in the colours Pearl White and Pearl Black.

### Dispenser variety

If you're looking for a stainless steel dispenser, the Euro Stainless line from our own Euro Products brand is an excellent choice. We also carry dispensers from other well-known and reputable brands such as Ophardt, SanTral and Ingo-man and always strive to deliver the best quality at the best price.

### Quartzline Circle: Circular and Stylish

Looking for a circular and stylish solution for towel, toilet and soap dispensers? Look no further! Our QuartzLine Circle is a real eye-catcher in washrooms. These durable dispensers are available in various systems and come in a stylish black colour.

### Durable

The QuartzLine Circle is made of ABS, a thermoplastic material which is easy to recycle. The production process of ABS requires less energy than that of most other plastics. ABS offers an excellent combination of strength and flexibility. In addition, ABS is significantly lighter than many alternative materials. Its light weight contributes to energy savings during transport.

- The QuartzLine Circle is made of **more than 70% recycled ABS plastic**. The back plate of the dispenser is even entirely made of recycled ABS.
- In addition, the entire QuartzLine Circle line is **extremely suitable for recycling**.

### Stylish design

The QuartzLine Circle dispensers have a modern and elegant appearance. The matt finish and clean lines fit perfectly into various sanitary environments. The dispensers are finished in a stylish black colour that contributes to their modern look.
This means you are contributing to a cleaner planet while enjoying high-quality, stylish dispensers.

**QuartzLine Creations**

Furnish your washroom with your own creation and design a front panel in your own house style. Without large or expensive interventions, you ensure that the washroom in your premises has a fresh and neat appearance. QuartzLine Creations: a personalised experience everywhere. It is easy to customise, without large or costly interventions.

1. *Select the dispensers you want to personalise.*
2. *Choose an image or logo and deliver it to us together with the dispensers of your choice.*
3. *We will work for you and transform your dispensers into unique and personalised items.*
4. *When you are satisfied with the design, they go into order. Please note that the minimum order is 10 units per type of dispenser.*
5. *As soon as we receive the printed front panels, we will send them to you.*

**QuartzLine SmartConnect**

The QuartzLine SmartConnect dispensers are at the heart of a modern, intelligent approach to facility services. They provide real-time information on fill status and usage, enabling your cleaning teams to work more effectively and prevent unnecessary stock shortages.

These smart dispensers serve as a solid foundation for expanding into a comprehensive package that covers the entire cleaning process, from inventory management to task execution.

The sensors in the dispensers utilize LoRaWAN®, offering benefits such as extensive coverage, energy efficiency, secure data transfer, and straightforward installation. LoRaWAN® is a powerful long-range communication tool specifically designed for Internet of Things (IoT) applications.

## DUO TOILET ROLL DISPENSER | BUNG ROLL P1
