Euro[®]
PRODUCTS

MTS Euro Products: specialists in professional hygiene solutions

Since 1991, Euro Products has supplied our clients with a comprehensive range of hygiene solutions, from hygiene paper and professional soaps to wiping rags, sorbents, and dispensers. With decades of experience, precision in-house logistics and extensive stock availability, we have earned our status as an expert, trusted partner in the professional hygiene industry.

Our sustainability strategy

Sustainability is an integral part of our business strategy. To turn our ambitions into measurable results, we operate across four strategic pillars.

In this brochure, we outline these pillars and provide a few examples of our sustainable product solutions.

*More information about
our sustainable approach.*

THE CLEAR, CLEAN AND GREEN SOLUTION

SUSTAINABLE BUSINESS PRACTICES

Sustainable, responsible operations within our organisation

Energy-efficient facilities

- BREEAM 'Excellent' certification
- 1,900 solar panels, over 50% of our energy needs are self-generated
- Green landscaping surrounding our premises
- Fully gas-free offices

Waste management & recycling

- Separation of plastic, cardboard and residual waste
- Processing via fully certified recycling partners

Additional certifications

- ISO 14001: environmental management
- ISO 9001: quality management

Sustainable HR policy

- Focus on growth and professional development
- Strong attention to employee well-being and mental health

SUSTAINABLE PRODUCT RANGE

Building a responsible product portfolio together

Hygiene paper

- FSC® chain of custody certification
- FSC®-certified products
- EU Ecolabel (since 2008)
- E-Tissue circular product line

Non-wovens & Wet wipes

- Softtex & Soft Polish (plastic-free)
- Eco Ultra Viscose wet wipes (plastic-free)

Wiping rags

- 20 million kg of wiping rags produced from 22 million kg of collected textiles

Dispensers

- QuartzLine Circle dispensers: 70% recycled ABS, 100% recyclable

RESPONSIBLE SOURCING

Working together towards a sustainable supply chain

Supply chain control

- FSC® certification
- Regular supplier audits
- Responsible forestry practices

Recycling

- Packaging film waste reused as raw material for refuse bags

Strategic suppliers

- Clear partnership agreements
- Code of Conduct
- Recognised certifications

COMMUNITY ENGAGEMENT

Business with a heart: focussing on people and environment

Social initiatives

- 'Stroomopwaarts' (social employment programme)
- Maassluis Food Bank
- 'Sintvoorieder1' (toys for children foundation)

Sport & events

- Main sponsor of local football club, Excelsior Maassluis
- Furiade festival (local event)

Regional engagement

- 90% of our employees live in nearby Maassluis
- Active partnerships with schools, businesses and local networks

Euro
PRODUCTS

Our sustainable product range: at a glance

Euro Products is your **one-stop shop for professional hygiene solutions**. With a broad, readily available range of products, we provide everything needed to keep any sanitary or professional environment clean, safe, and efficient.

Hygiene paper

More than half of our hygiene paper products carry recognised sustainability certifications, including **FSC®**.

With **E-Tissue**, we offer a circular product range which are made from recycled raw materials and produced without chlorine or other harmful chemicals.

QuartzLine Circle

QuartzLine Circle is a circular dispenser range for paper towels, toilet paper and hand soap. The dispensers are made from over 70% **recycled ABS** and are fully recyclable. The black design fits seamlessly into a wide range of washroom environments.

Wiping rags

Each year, we process approximately 22 million kg of collected textiles into 20 million kg of wiping rags. These used textiles are carefully selected and transformed into strong, highly absorbent cleaning cloths.

Wet wipes and non-wovens

Our **Eco Ultra Viscose wet wipes** are **fully biodegradable** and packaged in recycled, **fully recyclable** material.

We also offer plastic-free non-wovens, including **Softtex** and **Soft Polish**. These cloths are durable, low-lint, and suitable for a wide range of applications.

We are building a cleaner, more sustainable future together

Our sustainability strategy is not just a 'vision'. It is what we put into practice every day in our operations, products, and decision-making. Through smart solutions, efficient consumables, and a growing portfolio of sustainable alternatives, we help organisations make real, measurable progress.

Want to make your organisation more sustainable?

Curious about how your business can reduce its environmental impact? Or which products best suit your locations, users, and goals? Our sales team is ready to support you with practical advice, transparent guidance, and results-driven solutions.

Questions or personal advice?

Feel free to contact our specialists. We are happy to provide tailored recommendations, product proposals, and insights into sustainability opportunities within your organisation.
